

# ANGLEMASTER 3000MC

**Reliable.** Unsurpassed warranty.

**Safe.** Ergonomically designed for operator safety.

**Accurate.** Delivers a clean cut to microscopic tolerances.

**Value.** Offers substantial whole-life cost savings.

**Speed.** Delivers a 15-minute turnaround, floor to floor.

**Ease.** Let the machine work for you.

New Anglemaster 3000MC bedknife grinder from Bernhard offers speed and accuracy with simple mechanical control at a price and specification to suit your requirements.

Applying Bernhard's approach of using a simple protractor with 'auto-cue' to find any desired angle, bedknives can be sharpened to within one thousandth of an inch. Independent end-feed paralleling and a single point advance make this the easiest bedknife grinder on the market. Central grind position helps to minimize errors.

- Simple to set up and use
- Accurate – grinds to within 0.001"
- Can grind bedknives up to 40" long
- Automatic traverse
- Coolant dispersal and debris separation come standard
